**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The reason I subscribe to a local smaller internet Co rather than a few mega companies which were headache and frustration with customer service.

My local internet provider fees has been reasonable for several years until I switched to fiber optic, but their customer service is still excellent.

NO price hikes that will increase the cost of internet and telephone services further. These are part of essential necessity in this world, should be reasonably affordable to ordinary citizens whether you live in the city or rural area.
